Collins and Quillian - Bryan Burnham

Collins and Quillian's (1969) Results On the assumption that memory is organized hierarchically, Collins and Quillian (1969) proposed that you would need to move up and down the levels in such a hierarchy to link together concepts and attributes. In their study, subjects rated the truthfulness of a number of statements about whether one category is part of another category (A Canary is a

Period04 - Homepage - Universit t Wien

Period04 is a computer program especially dedicated to the statistical analysis of large astronomical time series containing gaps. The program offers tools to extract the individual frequencies from the multiperiodic content of time series and provides a flexible interface to perform multiple-frequency fits.
