AGROFORESTRY FOR ECOSYSTEM SERVICES

2 UMCA 2011 Annual Report: Agroforestry for Ecosystem Services ABOUT THE CENTER

AGROFORESTRY PROVIDES new market opportunities, a number of ecosystem services, and is a form of sustainable agriculture and land stewardship. In simple terms, agroforestry is intensive landuse management combining trees and/or shrubs with crops and/or livestock. The Center for Agroforestry at the University of

Agroforestry for ecosystem services and environmental ...

Past and present evidence clearly indicates that agroforestry, as part of a multifunctional working landscape, can be a viable land-use option that, in addition to alleviating poverty, offers a number of ecosystem services and environmental benefits. This realization should help promote agroforestry and its role as an integral part of a multifunctional working landscape the world over.

Agroforestry for ecosystem services and environmental ...

Agroforestry systems are believed to provide a number of ecosystem services; however, until recently evidence in the agroforestry literature supporting these perceived benefits has been lacking.

Agroforestry is paying off Economic evaluation of ...

We assessed marketable and non-marketable ecosystem services (ES) in 11 European agroforestry landscapes. Focussing only on marketable ES, agroforestry had slightly lower market outputs than agricultural landscapes.

Agroforestry for ecosystem services and ... -

MAFIADOC.COM

Conclusions There has been a recent accumulation of evidence that supports the ecosystem services and environmental benefits claims of agroforestry systems and practices in both the tropical and temperate regions. In the past, the paucity of hard evidence has hindered the progress of agroforestry and its acceptance by practitioners, farmers and policy makers. However, the solid scientific
