## CHAPTER 7 CONTAMINATION CONTROL

### CONTAMINATION CONTROL 7-1

#### CONTAMINATION CONTROL a. General.

Contamination control minimizes the spread of  
contamination; therefore, rigid, established operating  
procedures must be followed to achieve the objective of  
contamination control. It consists of (1) Initial monitoring  
upon arrival to determine the preliminary site  
characterization and personnel contamination, (2) Anti-  
contamination

### [Environmental Pollution Control Water, Air and Land](#)

...

Environmental pollution comes in various forms, such as: air pollution, water pollution, soil pollution, etc. Everyone is a stakeholder as we are all inhabitants of this one and only mother earth. Each person can contribute something to advance environmental pollution mitigation measures.
