[Hip Arthrodesis - Indications and Procedure | Bone and Spine](#)

Hip arthrodesis is a procedure where hip joint is surgically fused. It is used for management of advanced hip arthritis in a selected group of patients. It is used for management of advanced hip arthritis in a selected group of patients, anyone out there who has a fused hip (arthrodesis ... Hi Debra, I had a hip arthrodesis done in 1973 because I had a dislocated hip from childhood. It was the only solution at the time but as you know over time there are so many problems related to it, problems too numerous to go into especially the crippling back pain due to having to twist your back to walk.

#### **Hip Osteoarthritis (Degenerative Arthritis of the Hip) - WebMD**

Arthritis means "joint inflammation." It causes pain and swelling in the body's joints, such as the knees or hips. There are many types of arthritis, but osteoarthritis is the most common.
