[How Long Will I Live? - Life Expectancy Calculator](#)  
For example, if you are well-educated, a non-smoker and in good health, your estimated life expectancy can far surpass that of your peer group. Why else do we estimate you'll live so long? Younger Americans should benefit from improving mortality rates. Since 2000, average lifespans have increased by 2 years. If that trend continues, we will likely see more Americans under 60 live well into their 90s and later.

[How long do we live? : demographic models and reflections ...](#)

The most widely used measure of longevity is the period life expectancy at birth which is calculated from age specific death rates by life table methods. In 2002, John Bongaarts and Griffith Peeney introduced the revolutionary idea that this conventional estimate of period life expectancy is distorted by a tempo effect whenever longevity is
