Mathematical proof that man-made climate change is a total ...

(Natural News) One of the grandest scientific hoaxes ever perpetrated against humankind is that Man's modern life (along with cattle farts) is causing catastrophic climate change or global warming, depending on the day.

Natural and Man-made Causes of Climate Change | Earth Eclipse

There are many causes for these energy shifts, called climate forcers; some internal in the climate itself, some natural but external to climate, and some man-made.

According to Wikipedia, Climate is the long-term pattern of weather in a particular area.

Man-made Climate Change Climate Change Explained

Man-made Climate Change: The Netherlands is sinking.

For centuries the Dutch have used windmills to pump water out of the ground in order to make it suitable for farming, and the loss of groundwater has caused the land to settle several feet over the years.

The 97% consensus on global warming - Skeptical Science

That humans are causing global warming is the position of the Academies of Science from 19 countries plus many scientific organizations that study climate science. More specifically, around 95% of active climate researchers actively publishing climate papers endorse the consensus position.

Scientific opinion on climate change - Wikipedia

Scientific opinion on climate change is a judgment of scientists regarding the degree to which global warming is occurring, its likely causes, and its probable consequences. A related but not identical term, "scientific consensus on climate change", is the prevailing view on climate change within the scientific community.
