Introduction to RV Solar Panel Kits and Systems

Using Solar Panels For Primary Electrical Power. The second use of solar panels is to provide primary power to RV house systems. This involves the installation of several solar panels and other gear, together sometimes called a solar kit, to create and regulate enough power for routine operation of your RV's house systems.

RV and Marine Solar Packages

RV/Marine Solar Power Systems use the same components as any off-grid power system solar panels or wind generator, inverter, charge controller, and batteries. Just about any solar panel will work for an RV or Marine application.
