Transboundary Floods: Reducing Risks Through Flood ...

Many flood management measures have been practiced in various jurisdictions, including living with floods, non-structural measures (e.g., regulations, flood defence by flood forecasting and warning, evacuations, and flood insurance), and structural measures (e.g., land drainage modifications, reservoirs, dykes and polders). Such flood management is difficult in river basins controlled by a single authority, and becomes even more challenging when dealing with transboundary floods, which may

Transboundary Floods Reducing Risks Through Flood ...
