Infix - Wikipedia

An infix is an affix inserted inside a word stem (an existing word, or the core of a family of words). It contrasts with affix, a rare term for an affix attached to the outside of a stem, such as a prefix or suffix (in mathematics, the terms prefix ("Polish Notation") and postfix are used).

Meet the Chicago Equine Veterinary Team

Our Veterinarians Dana Marsh, DVM, CVA. Dana Marsh, DVM, CVA was born and raised in Lincoln Park, just minutes away from downtown Chicago. She graduated from the University of Illinois College of Veterinary Medicine in May, 2006 with high honors.

The Turkish Journal of Gastroenterology

Retraction Notice - Fatty liver disease might increase the risk of abdominal operation in patients with fatty liver and the prevalence of cancer in first-degree relatives

The treatment of talar body fractures with compression ...

Fractures of talar body are rare and serious injuries and frequently seen in multiply injured and polytraumatised patients. The high variability of talar fractures, their relatively low incidence together with the high percentage of concomitant injuries makes treatment of these injuries a challenge to the surgeon.
