[Women Leaders in the Workplace: The 21st Century ; Women Leaders in the Workplace: The 21st Century .](#) By: Ella L. J. Edmondson Bell, PhD. It has been widely reported that for the first time in history, women are less than a percentage point away from making up the majority of the national workforce. The economic downturn has hit men harder. They held nearly 80 percent of jobs that have been

Number of women leaders around the world has grown, but ...

As nations around the world celebrate International Women's Day, the number of countries that have had a female leader continues to expand. But the list is still relatively short, and even when women have made it to power, they've rarely led for a long time. Fifty-six of the 146 nations (38%
